

From our 850 past & 120 current SAINTS, THANK YOU for seeing our value!

It costs over \$450,000 to run SAINTS, a multi-species sanctuary for senior and special needs animals. Most animals that arrive at SAINTS come with huge vet bills and a large percentage of them continue to require medical attention -- this means it is critical that we keep funds available for veterinary care. This year, we would like to fundraise for large ticket items and have set a goal to raise \$20,000 to do some much-needed repairs in our MP (multi-purpose) building. Repairs include dealing with serious mold issues, reside the front of the building, insulate outside walls that have opened, and install exhaust fans to rid the rooms of excess moisture to prevent future mold to maintain the health and safety of our animals and everyone using the rooms.
